Jun 16, 2020 But the update for xbox one X and PS4 and remove all the offline mods!? Jun 16, 2020 I've had a constant connection since I bought my console, and never had a problem with the offline mods. Jun 16, 2020 You should've thought of that before you purchased your PC! Your PC isn't fast enough for Conan Exiles even if you have a high end PC! Jun 16, 2020 The game freezes every second and then once in a while in the middle of a fight it just stops. No errors, just freeze. Jun 16, 2020 When i play through steam with offline mods i get HUGE white blocks on the map, sometimes on the portal and the stream. Mods do not work right unless i turn them off and on multiple times. Jun 16, 2020 By the time the game gets updated for the next few weeks to months and because of the mods, the mod scenes are outdated. Jun 16, 2020 For other people on this same idea.. Is there anything you can get like that for other games? I know the models are outdated but the models are just too large that you can't make any real difference on a server without the mods. Jun 16, 2020 If you have a problem with the online games you have to fix it. Every game runs online through Steam, it's a joint operation between Valve and MGS and with in a couple of minutes it will be fixed Jun 16, 2020 The White Block problem has been described before, and while it has been "fixed" I have yet to find a resolution. I use an SSD hard drive, so that shouldn't be an issue, but both my wife and I have two machines that both have the problem. Jun 16, 2020 You need a better internet connection than the one you have. Jun 16, 2020 What you need to look for when it comes to Conan Exiles. An update is coming in which will remove all the mods including the ones I have. It will also make sure that the game won't be playable offline anymore. The only downside is that you will have to buy the full version of Conan Exiles again because you will no longer be able to get all the mods via the Steam workshop. You can read more about it in the current status on Steam. Jun 16, 2020 It is not the mods. It is just that people are overloaded ba244e880a
