The rest is all under "My ponies" and "My magic". Import your My Little Pony collection into the app and you'll be ready to play! Full Throttle: Rainbow Rocks is the first stage, released on July 14, 2018. The second stage is titled "Full Throttle: The Hoof'da with My Little Pony". Full Throttle: Rainbow Rocks was released on February 21, 2019. There is no exact release date of a third stage of the game, but it is said to release sometime before 2019. There are 3 stages in the game, each increasing in difficulty. I can tell you that the third stage of the game is called "Full Throttle: The Cake Is A Lie." Full Throttle: Rainbow Rocks is a game which is mainly inspired by The Sims. It is a city builder simulator. The main purpose of this game is to raise your own pony. As my previous theory states, we need to raise a pony and take it to the parter of Ponytopia. The gameplay of this game is quite simple. Your main character is the owner of their own animal. There are five main features of this game: buying new animals, playing mini-games, cooking, trading and gathering fruits and vegetables. There are different types of animals in the game, like for example, so far were we have found lion, bear and boar. There are three different types of animals, the similar ones, the close ones, and so on. These types of animals are specialized for different types of jobs. As you can see from the pictures of the animal, they can perform different jobs. As the name of the game suggests, these animals are a part of the rainbow rock. You can get inspiration from the rainbow rock style in order to your animal's appearance. To be a part of the rainbow rock, you have to follow certain rules that will be explained below. There is a number of variations of all the animals in the game. Like, for example, the lion is more likely to sleep at night. Moreover, the lion will be a house pet than something else. The lion has four different homes. Once you are settled in one home, you can not go to the other homes. The color of the shelter is based on the color of the animal. If you choose a certain color, then you will be able to see it for a much longer period of time 82138339de
